

R H O M B I I

ISN'T THE POINT OF A TRAINING TABLE TO ADAPT TO THE NEEDS OF A SPACE?

Case in point, this ad. It's a full page,
and we have a lot to say
about **BRETFORD's** new
RHOMBII training table.

Fortunately for us, moving the **RHOMBII** aside to make room was simple. Indeed, simplification informed the entire design process. **RHOMBII** is built for lightweight maneuverability and strength. To borrow a phrase from the technology world, the **RHOMBII** is user-friendly. Folding and flipping is a one person job. Power and data are easily accessible. Wire management is manageable. Then, there is the form. Clean, crisp lines and finishes complement **RHOMBII's** functionality. When the **RHOMBII** is folded up and nesting, it maintains an aesthetic appeal. The addition of the **RHOMBII** is just one more reason why Bretford is your single source for complete environment solutions.

COME VISIT US AT NEOCON, SUITE 330, AND WE'LL SHOW YOU HOW NO ONE HELPS YOU BRING A SPACE TOGETHER LIKE BRETFORD.
